

Marine On Board Safes

Providing security on board

isotherm

More security on board

The use of sophisticated, expensive technical equipment, create a higher demand for security on board. On board safes help to ensure on board security and therefore increase the well-being of passengers and boat owners.

The Isotherm Marine safes are available in two sizes. The larger model (Safe 30) is big enough to store a laptop computer. The smaller safe (Safe 10) fits to store smaller size electronic devices.

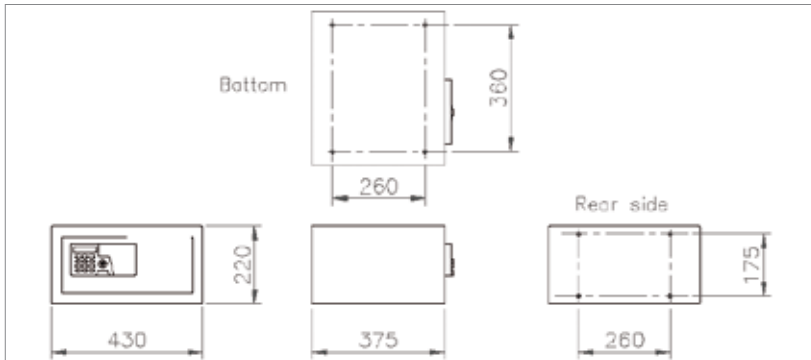

- 1 Extra thick (5 mm) stainless steel AISI 304
- 2 Three independent locking systems (code number, mechanical, electronic key)
- 3 Robust design
- 4 Mounting bracket kit
- 5 Plenty of space inside

Product Overview: Marine On board safes

Article number	Type	Dimensions H x L x W (mm)	Weight (kg)
7010000A00000	Safe 10	165 x 300 x 230	7
7030000A00000	Safe 30	220 x 430 x 350	19
